

**Speech Perception**  
Patricia K. Kuhl, Ph.D.  
Created 1997

**Table of Contents**

- 1. General Introduction**  
Speech/Language Processing: Academic, Business and Society Interest in this topic  
Spoken Language  
Spoken Language Processing
- 2. Classic Issues in Speech Perception**  
Segmentation  
Invariance  
Speech Understanding: "Bottom Up" vs. "Top Down"
- 3. Phonetic Perception**  
Categorical Perception  
Perceptual Magnet Effect
- 4. Model of Developmental Speech Perception**  
Infants Learn By Listening: Motherese  
Initial State of Phonetic Perception  
Development of Native-Language Magnet Effects  
Effects of Perceptual Magnets on Phoneme Boundaries
- 5. Cross-Modal Speech Perception: Links to Production**  
Auditory-Visual Illusions in Speech Perception  
Infants' Detection of Auditory-Visual Speech  
Vocal Limitation
- 6. Biology and Neuroscience Connections**  
Biology: Speech as a Biological Specialty  
Neuroscience: Brain Mapping of Speech
- 7. Summary and Conclusions**
